- Realtime Call Detail
- Advanced Management Portal
- Online Reporting

nexVortex is an Internet Telephony Service Provider. We specialize in delivering high quality Voice over IP communication services to small and medium sized businesses using SIP Trunking.

SIP Trunking is easy to setup, transparent to end users, saves money and gives you greater control over your communication services. It's a powerful solution.

nexVortex's SIP Trunking service gives you the ability to make outbound calls anywhere in the world, receive phone calls using both standard phone numbers and tollfree numbers and place emergency calls to the local emergency center. With this combination, users can replace their traditional analog circuit connections with a single internet connection. Switching to SIP Trunking typically saves up to 50% over traditional telcom costs.

Flexible Billing Plans

We offer flexible billing plans designed to match your requirements. Our most popular plan, the Business Elite, includes five telephone numbers and 5,000 minutes of outbound calling over multiple speech paths. We can also customize a plan, tailored to your needs. If you ever need to change your plan, simply go to the website and switch. It's that simple.

	BEST VALUE			
	Business Elite	Business Pro	Business Line	Metered
Call Paths	Unlimited	Unlimited	1 Call Path	Unlimited
Outbound Calling	5000 Minutes/ Month	2000 Minutes/ Month	Included	2.5 cents Per Minute
Inbound Calling	Included	Included	included	2.5 cents Per Minute
Numbers Included	5	1	1	0
E911	Yes	Yes	Yes	Yes
Disaster Recovery	Included	\$10 Per Month	\$10 Per Month	\$10 Per Month
Monthly Price	\$100	\$40	\$35	Usage Based

* Pricing plans are cumulative. Example: 2 Business Pro Plans provide 4000 Outbound Minutes.
 * Custom Pricing Plans are available for call centers, multisite and larger minute user customers.

With nexVortex's SIP Trunking service, you'll have access to an **Advanced Management Portal**. Through this portal you will be able to manage every aspect of your account. Everything from ordering numbers, to setting up emergency locations to changing billing plans and reviewing statements. It's all there in a simple, secure, easy to use interface.

At nexVortex we are passionate about what we do. We have deep SIP technology knowledge and in 2005 were one of the first in the industry to launch a business grade SIP Trunking service. Our customers have demanded the highest levels of service quality and customer care. We have exceeded their expectations.
